

EXPERIENCE MATTERS

Home loan 'brokers' are governed by strict legislation and must be appropriately accredited, licenced and educated within the finance industry. Often you will find that we have a higher standard of education and knowledge than your local bank home loan consultants. With over 16 years' experience in the industry, our Team offer expert advice on a home loan strategy that fits your goals today, and into the future.

We have the experience

With over 16 years as a personal home loan advisor and an investment property specialist, Tarek and his Team have far more experience than most bank staff who are only exposed to a single lender and often have no experience with any other lenders policies/products. Tarek and his team aim to make the process from beginning to end as stress free as possible for you.

A home loan is a long term investment, and you need to ensure that it can do what you need it to do, when you need it.
